

GLORY DOMAIN

A pastor in Zimbabwe just wanted to pray with his people.

The technology kept getting in the way.

swipe →

THE PROBLEM

Zoom cut every prayer short at 40 minutes.

A church family scattered across the world.

Back home, costly data and weak networks made
simply joining a battle.

THE IDEA

**So I built something
that fits the people —
not the other way
around.**

MEET

Glory Domain

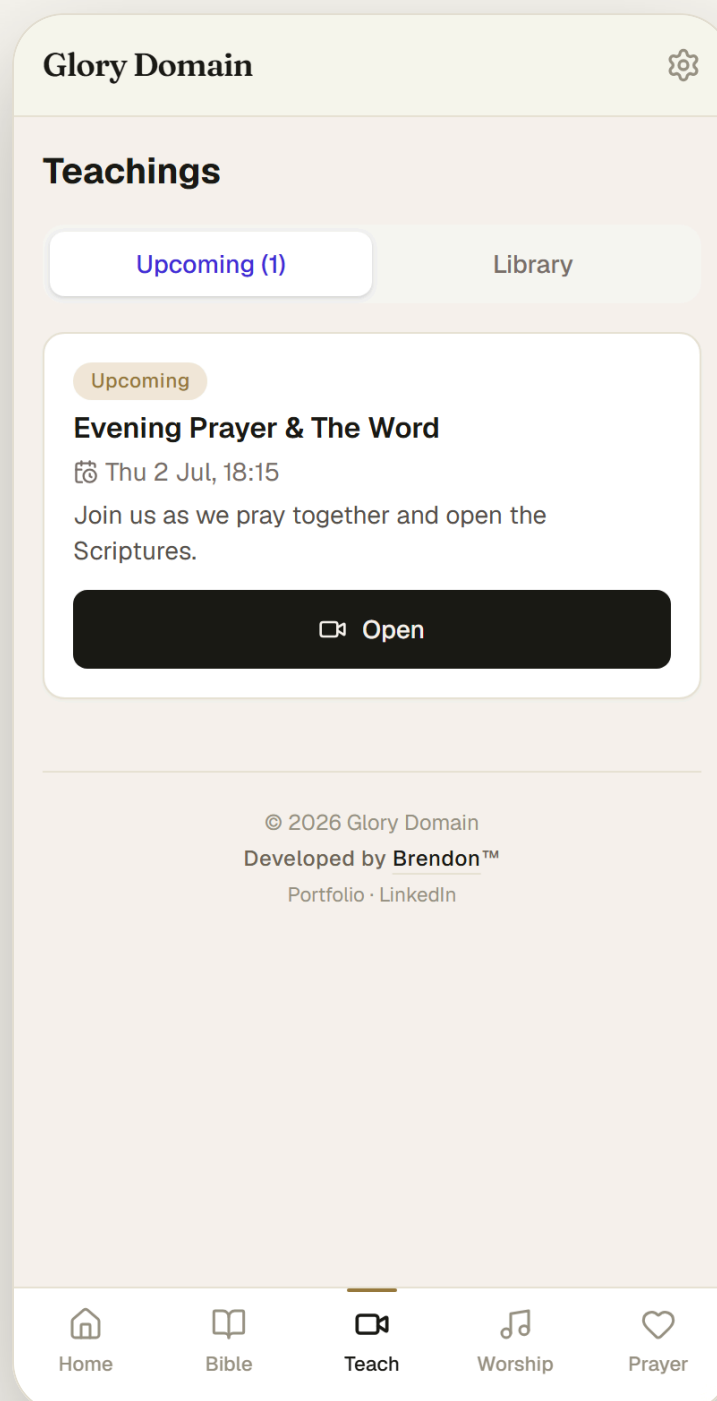

A light, low-data web app that keeps a faith community connected — across borders.

glorydomain.org

GATHER

Live prayer & teaching — no time limits

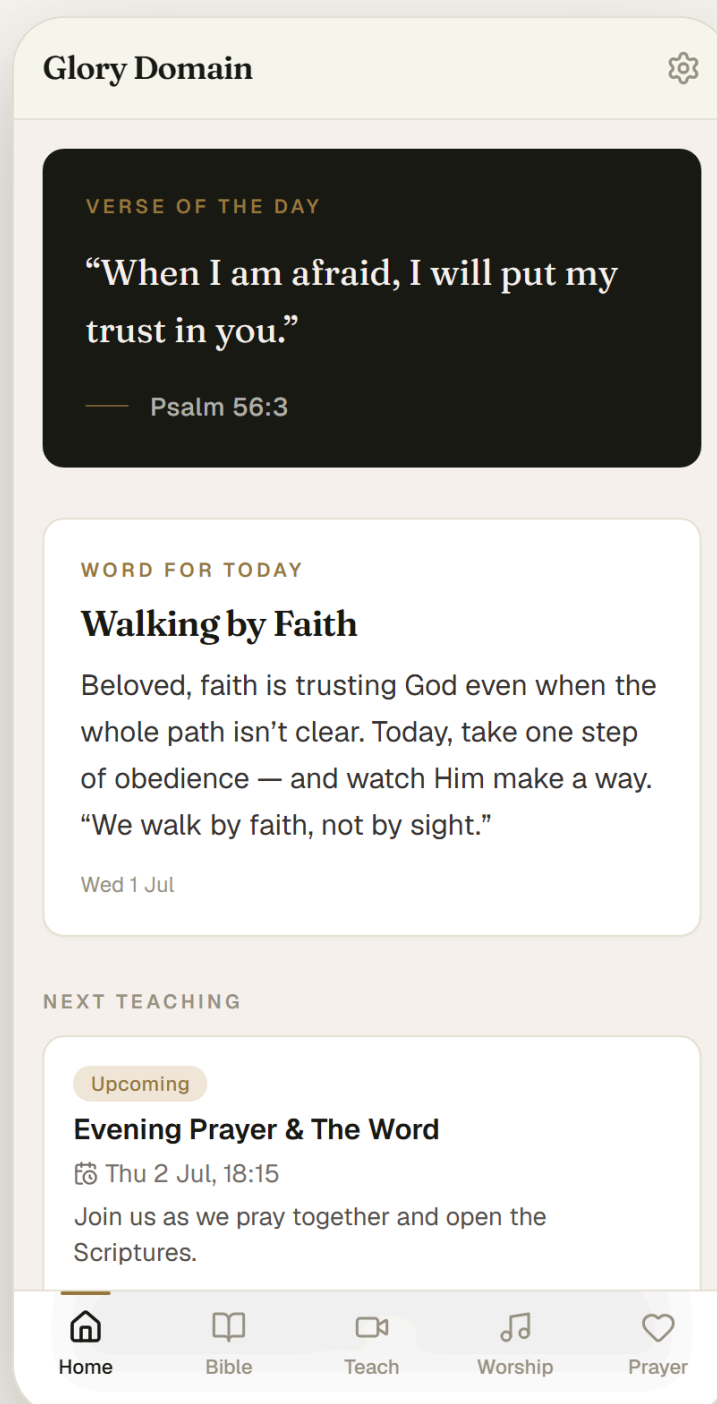

Low-data video & voice, right in the browser.

EVERY DAY

A verse and a Word from the pastor

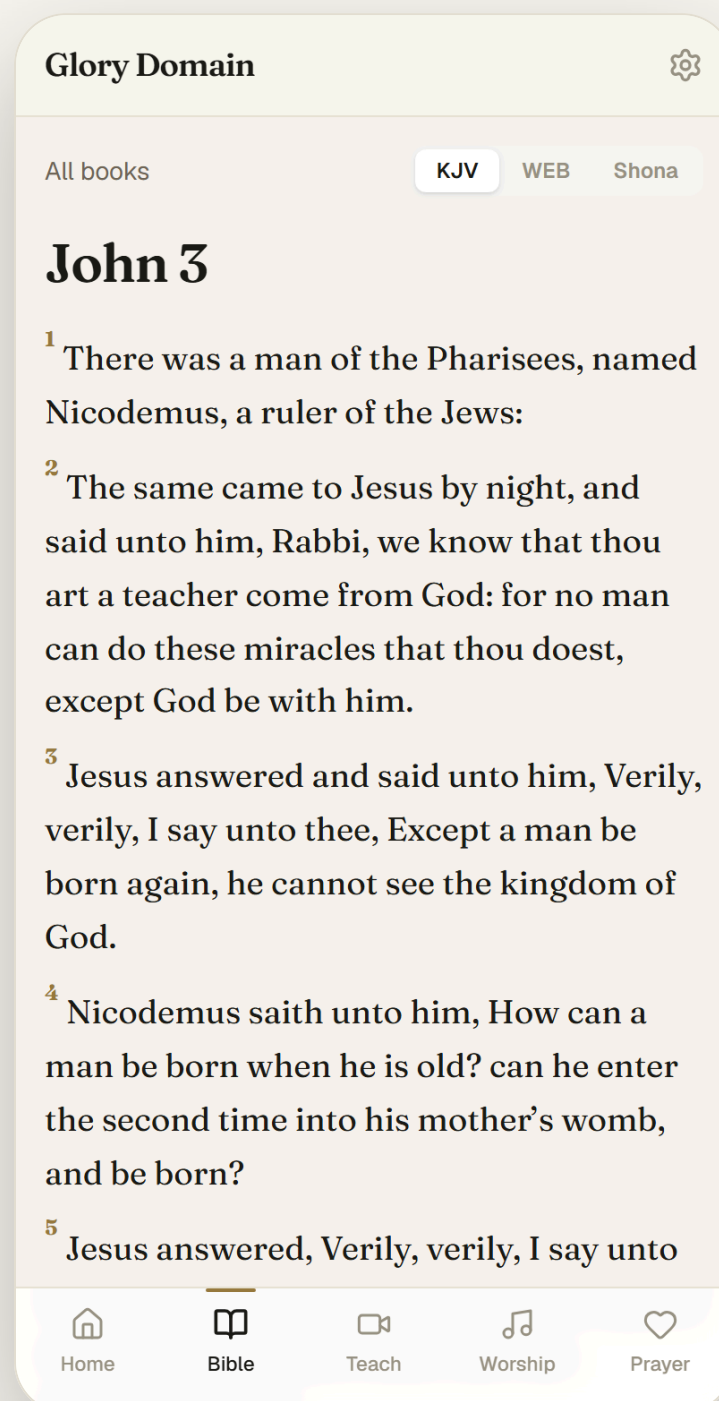

Daily Scripture and a short teaching on the home screen.

SCRIPTURE

The Bible — English & Shona

KJV, modern English, and Shona (New Testament).

PRAYER

Private prayer requests

They go straight to the pastor — no one else sees them.

Glory Domain

Prayer wall

Share a request — our pastor and church family will pray with you.

Grace

Praying

Please pray for my family back home and for safe travels this week. Thank you, church family.

Prayer

WORSHIP

Daily praise & worship

Curated gospel songs and playlists — a fresh pick each day.

BUILT FOR REAL LIFE

**Works on any phone.
One tap. No sign-ups.**

Light on data. Installable. Made for low
connectivity.

THE LESSON

**Good technology
meets people where
they are.**

A church, a small business, an NGO — design around the real barriers, and you include everyone.

SEE IT LIVE

glorydomain.org

If your organisation needs to reach people who
keep getting left behind, let's talk.
